This document (the “Report”) has been prepared by Renewable Energy Systems Ltd (“RES”). RES shall not be deemed to make any representation regarding the accuracy, completeness, methodology, reliability or current status of any material contained in this Report, nor does RES assume any liability with respect to any matter or information referred to or contained in the Report, except to the extent specified in (and subject to the terms and conditions of) any contract to which RES is party that relates to the Report (a “Contract”). Any person relying on the Report (a “Recipient”) does so at their own risk, and neither the Recipient nor any person to whom the Recipient provides the Report or any matter or information derived from it shall have any right or claim against RES or any of its affiliated companies in respect thereof, but without prejudice to the terms of any Contract to which the Recipient is party.

Contents

1	Introduction	1
2	Assessment Charts.....	1

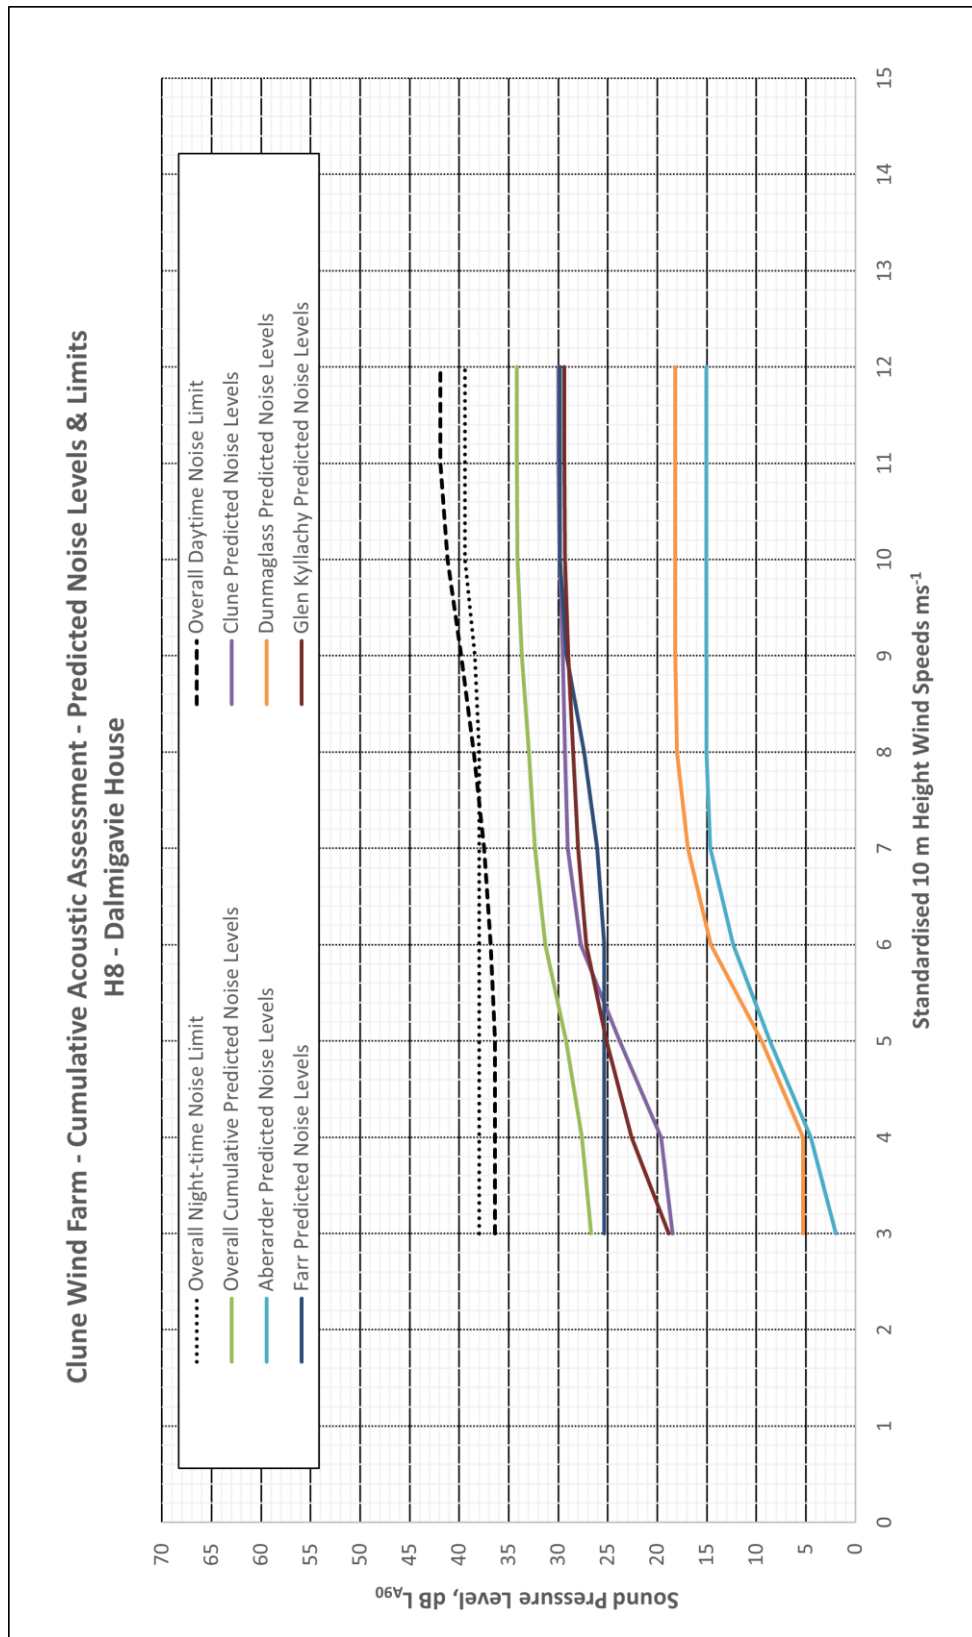

1 Introduction

- 1.1.1 This Technical Appendix shows the predicted turbine noise levels associated with the operation of the Proposed Development, the cumulative sites considered: Dunmaglass, Farr, Aberarder, and Glen Kyllachy wind farms, and the combined total at three neighbouring properties: H8 - Dalmigavie House, H15 - Glen Kyllachy Lodge, and H21 - Easter Strathnoon, with the smallest margins to the noise limits, taking into account wind direction effects and over a range of standardised 10 m height wind speeds, as described within **Chapter 11** of the EIAR.

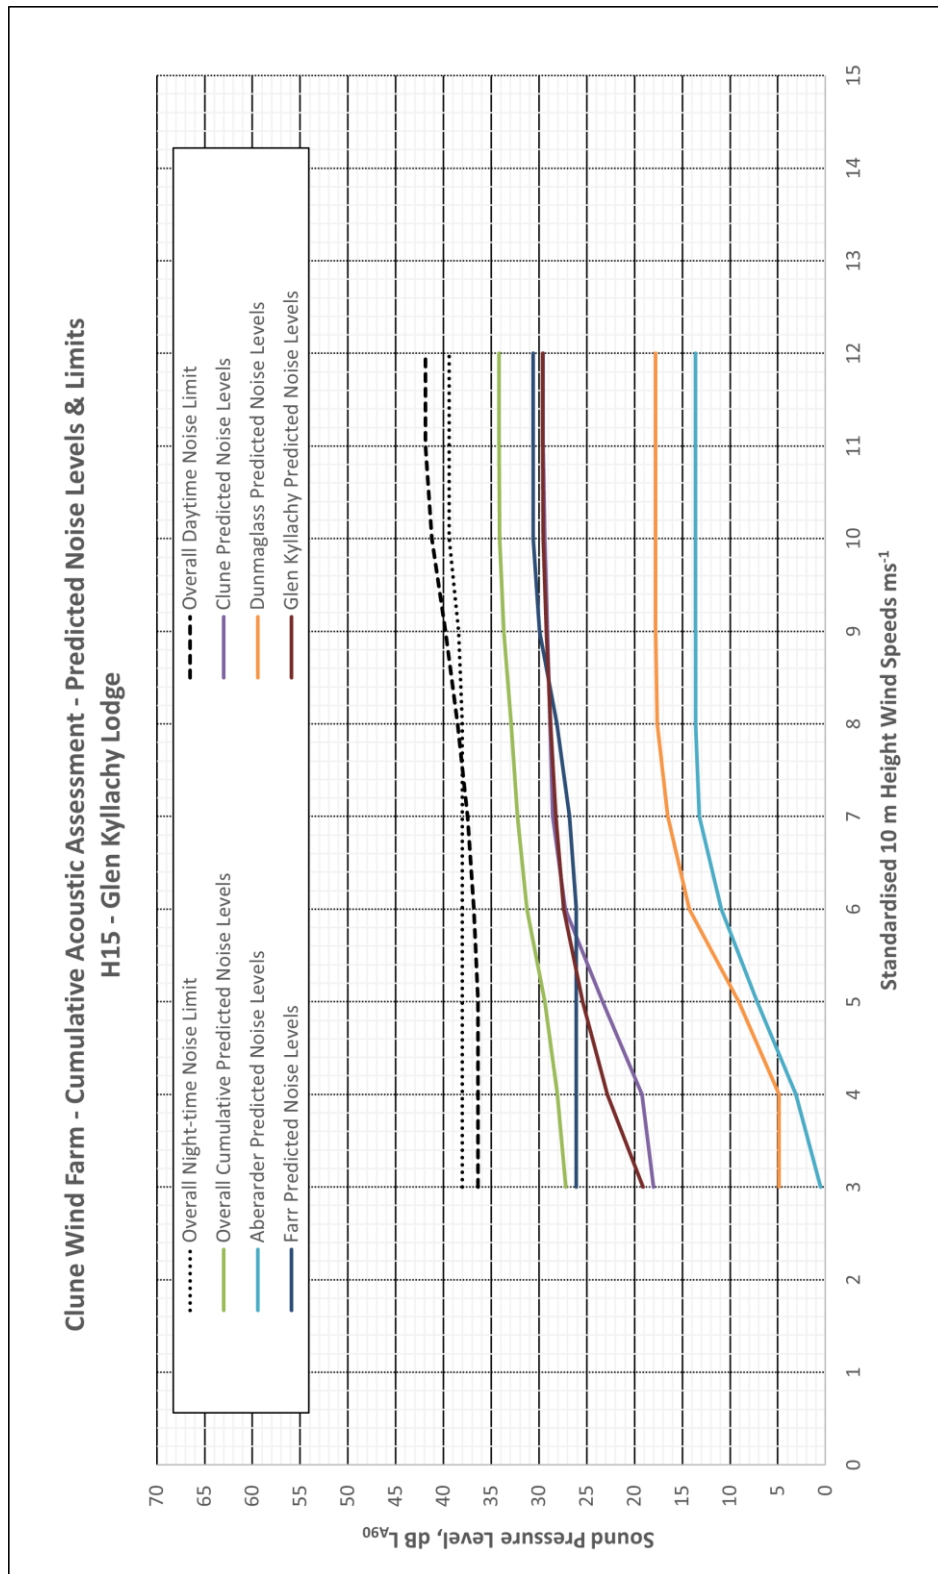

2 Assessment Charts

- 2.1.1 See overleaf.

Assessment Chart 11.4.1 Predicted Cumulative Noise Levels and Daytime Noise Limits at Dalmigavie House (H8)

Assessment Chart 11.4.2 Predicted Cumulative Noise Levels and Daytime Noise Limits at Glen Kyllachy Lodge (H15)

Assessment Chart 11.4.3 Predicted Cumulative Noise Levels and Daytime Noise Limits at Easter Strathnoon (H21)
